CRYPTO
DAILY BRIEF

Problem Statement

- **Too Much Data:** Crypto users get lost in endless information
- **Hard to Combine:** On-chain data and market news are scattered
- **Confusing Tools:** Web3 has special wallets & terms that scare newcomers

What We Made

CryptoDailyBrief is a **chat-based** tool that shows:

- **On-Chain Data:** Wallet balances & transactions
- **YouTube Trends:** Popular crypto videos
- **Simple Chat:** Talk to the blockchain in real time
- **Unified Dashboard:** Everything in one place

How It Works

1. Wallet Data

- Balances & transactions (via The Graph)

2. Unified Dashboard

- On-chain & off-chain info in one view

3. Chat with an Agent

- Ask about tokens & send transfers through chat

Demo

- **Live Chat Demo**

Send tokens with simple commands

- **Real-Time Updates**

Watch balances change as you transfer

Tech Stacks

- **Autonome**

Deployed AI agent on their platform

- **AgentKit (Coinbase)**

On-chain wallet & actions for our agent

- **Base**

Smart contracts on Base (Sepolia testnet)

- **The Graph**

Fetch chain data

Future Works

- **Auto Trading**
Let the agent buy/sell tokens under your rules
- **More Social Media**
Pull data from Twitter, Discord, etc.
- **Mobile Version**
Manage tokens & chat on the go

Thank You
